Jeff Kibet Kipruto

Frontend Developer | Counselling Psychologist

+254 714 006 899 | jefferykibet@gmail.com | github.com/JeffKibet | Nairobi, Kenya

SUMMARY

Frontend developer in training (Moringa School bootcamp, completing November 2026) building responsive web apps with HTML/CSS, JavaScript and React. Former Counselling Psychologist whose clinical background brings user empathy, clear communication and experience working in multidisciplinary teams. Interested in mental-health technology, where empathy and engineering solve problems together.

SKILLS

- **Frontend:** HTML/CSS and responsive design, JavaScript, React, React Router, Tailwind CSS
- **Tools and backend:** Git/GitHub, Python, Flask, testing (Jest)
- **Professional:** Communication, collaboration, active listening, empathy, cultural competence, strategic thinking
- **Languages:** English, Swahili

PROJECTS

Menda | React, Vite, Tailwind CSS, Claude API

- Built a CBT-guided mental wellness web app for the Kenyan market using React (Vite), React Router, Tailwind CSS and the Anthropic Claude API.
- Features a PHQ-9 intake assessment, AI-powered CBT chatbot, mood tracking and crisis escalation; deployed on Vercel.

EXPERIENCE

Counselling Psychologist | **Defence Forces Memorial Hospital**
March 2025 - November 2025 | Nairobi, Kenya

- Delivered evidence-based CBT and trauma-focused interventions, with measurable improvements in patient well-being.
- Led crisis interventions for PTSD and acute stress cases, preventing escalation into psychiatric emergencies.
- Established peer-support groups within the hospital, reducing relapse and readmission rates.
- Trained nursing staff and junior clinicians in counselling and patient-centred communication, and collaborated with multidisciplinary teams to deliver culturally sensitive care.

Counselling Psychologist | **Moi Airbase Aviation Hospital**
May 2024 - August 2024 | Nairobi, Kenya

- Conducted psychological assessments that improved diagnosis and treatment planning for patients.
- Provided individual and group therapy that reduced symptoms of stress, depression and anxiety.
- Designed and delivered psychoeducation programs on mental health, resilience and trauma recovery.
- Introduced mindfulness and peer-support programs that reduced relapse and improved treatment adherence, contributing to higher patient satisfaction scores.

EDUCATION

Moringa School | Software Engineering Bootcamp — May 2026 - November 2026 (in progress)

- Full-stack software engineering program covering JavaScript, React, Git/GitHub, testing (Jest) and modern web development practices.

Moringa School | Software Engineering Foundations Course — April 2026

- Certificate awarded. One-month foundational course covering core programming and web development fundamentals.

Mount Kenya University | Bachelor's Degree in Counseling Psychology — September 2021 - December 2024

Moi Forces Academy | Kenya Certificate of Secondary Education — January 2017 - April 2021
